

Carrsun COVID-19 Update

www.carrsunfurniture.com/

Carrsun is doing our part to make safe transitions for our employees and our customers and our locations are open to the public as the government officials in our delivery radius make changes in the markets we service. Our goal is to exceed our customers' needs and expectations while doing our part to take proactive measures to help keep everyone safe.

Carrsun is closely monitoring the guidance of the World Health Organization and the Centers for Disease Control regarding the Coronavirus (COVID-19).

In order to maintain a safe environment for our customers and employees:

- Using registered COVID disinfectants approved by the Office of Indiana State Chemist, our furniture, housewares and additional add-on items will be processed for cleaning before and after each rental with attention to detail.
- Carrsun delivery teams continue to clean and disinfect our products thoroughly upon arrival with additional focus given to surfaces and high touch areas.
- Housewares will continue to conform to local and state health laws regarding the processing of tableware, dishes and linens, which includes using industrial sanitizers in our machines used to clean our products.
- Our facilities are sanitized constantly with state recommended sanitizing products.
- To ensure the welfare of our employees, Carrsun follows the CDC recommended personal health practices which include instructing employees who feel ill to stay home and consult their healthcare providers.
